

#### MAIN POINT:

##### **God is Creator**

God created everything, including us, and everything He created has a purpose. Our purpose is to have a relationship with God and to glorify Him.

#### FAMILY DISCUSSION:

1. **Today we learned about creation. Was there anything that was said that was surprising, confusing, or you didn't understand?**
2. **God's creation displays God's glory, creativity, and intentional design in everything. What is the most magnificent, beautiful thing you have ever seen? What does it reveal about God?**
3. **When you read about the sixth day of creation, we see that God was very intentional about making humankind. He called it "very good".**

**You matter deeply to God. How do you think God sees you? Do you think He believes you are 'very good'? (not in our behaviour, but worth)? Why or why not?**

4. **How does knowing that we are ALL created in the image of God change how we view (and treat) others?**
5. **Today we learned that**
  - **We are created**
  - **We are an image bearer of God**
  - **We are meant to live in community**

**Which one of those 3 things do you believe you need to grow in? Why? What is one thing you can do this week/month to grow?**

#### FAMILY PRAYER

**Read Ephesians 3:18-19 over your student and then bless them.**

***"May you have power together with all the Lord's Holy people to understand Christ's love. May you know how wide and long and high and deep it is. And may you know His love, even though it can't be known completely. Then you will be filled with everything God has for you."***

**"(Student's name), may you rejoice in the beauty and power of our uncreated Creator, almighty God. As you remember His power to create beauty from nothing, may it become clear to you how much He loves you, sees you, and delights in you. As His image bearer, may you reflect God to everyone around you this week.**
